Splashbacks of Distinction
Specialists in coloured and designer glass
the beauty of glass is not always clear

It is now possible to create a wonderful feeling of depth, space and light in your home using large spans of coloured glass. The technique we use is backpainting where we apply a specially formulated paint to the back of the glass and you see the colour through the glass.

Modern and stylish look
Highly stain resistant
Very clean and hygienic
Makes any room look spacious and modern
Light reflective surface brightens any room
Extremely strong and durable
Can be shaped to fit any wall
Heat and impact resistant
add a touch of ‘glass’ to your kitchen...

Modern kitchen design incorporates high gloss finishes on both work surfaces and in kitchen cupboards and now this clean bright look can be added to walls with our back-painted glass. Our glass offers a modern, stylish and stunning alternative to tiles, stainless steel and granite with an easy to clean surface.
...or your bathroom, living areas...

Our glass products need not be limited to your kitchen. All areas of the home can benefit from modern, bright and hygienic glass. Whether it be bathrooms or other wet areas or being used as a decorative design feature for modern living or work spaces glass offers a stunning, bright and luxurious solution.
Although a myriad of colours are available with our unique paint system we offer a standard range of 24 colours which will suit most applications.

**24 standard colours**

Our special Quartz effect gives an extra dimension to our painted glass and is ideal for glass worktops. The quartz effect gives a granite effect to the paint surface and is recommended to used with black or dark colours. The quartz effect is available in 3 stunning colours...Gold, Silver or Bronze.

**quartz effect finishes**
flash effect finishes

Our flash effect gives a shimmer to the surface similar to a pearlescent effect. These effects are available in a range of colours, Red, Blue, Green and Vibrant Gold and are ideal when used with a black background.

Blue Flash  Red Flash  Green Flash

custom colour service

With our custom colour service, it is possible to choose from over 1000 pantone colours and 215 Ral colours or we can match up to most paint manufacturers colours with our computerised matching system.

Due to the limitations in photographic and printing processes, actual colours may vary from those illustrated and should be used for guidance purposes only. Please refer to your RAL specifier for accuracy of colour.
patterned designs

Using our colour system it is also possible to create striking designs in the glass. You can choose from our range of standard designs and change colours to suit your home or our designers can produce a unique design to match your wallpaper, existing tiling or a unique creation to express your style.

These multi colour designs are particularly popular as splashbacks behind cooker hobs and the colours used can be extended to surrounding wall cladding.
Colorspray is a technically advanced 2-part epoxy resin based paint designed specifically for the glass industry, with focus on excellent adhesion and UV stability, the system is ideally suitable for all applications where backpainting of glass is required such as Kitchens, Bathrooms, Spandrel and cladding.

Glass Type
We recommend that 6mm glass be used in splashback applications and this should be toughened when being placed behind cookers or in close proximity to high heat. It is also recommended that all applications below a 1200mm threshold should be toughened.

Although Colorspray provides a very close commercial match to almost any paint colour this can vary when being viewed through the glass with varying shades of green hue due to high iron content in standard glass, this can be alleviated with the use of Low Iron alternatives such as Pilkington Opti White, Guardian UltraWhite, Saint Gobain Diamant, PPG Starfire or Glaverbel/AGC Clearvision. Other low iron content glass may also be available.

Fixing
When fixing, we recommend the use of our Colorspray LMF Application Adhesive. Colorspray LMF has been specifically formulated for use with the Colorspray system to avoid colour fading and other problems that occur when using incorrect materials for the bonding of glass to substrates.
coloured glass splashbacks

> glass worktops
> glass balustrades
> mirrors in a range of colours
> toughened mirrors in a range of colours

> glass table tops
> glass wall panelling
> printed glass splashbacks
> bespoke shower enclosures and screens
> glass vanity tops

and much, much more...
